

## UNIVERSITÀ DEGLI STUDI DI MILANO-BICOCCA

### SYLLABUS DEL CORSO

# Cultural aspects of the climate crisis: meanings, denials and desires of environmental relatedness

2223-DOTT-MOD04

#### Titolo

Cultural aspects of the climate crisis: meanings, denials and desires of envi-ronmental relatedness

#### Docente(i)

Prof. Mauro Van Aken

#### Lingua

English

#### **Breve descrizione**

#### Objectives

Climate changes are a geophysical dynamic, but represent a very cultural and so-cial issue, in their impacts, causes and challenges. Departing from anthropologi-cal perspective, combined with tools of the human sciences, we will analyze to-gether the multiple cultural and symbolical aspect of environmental relatedness and of the emotional and "unthinkable" aspects of the climate crisis

#### Target audience

Transversal to all schools of PhD

#### Participants

Min 10 Max 20

#### Notes

reference book: Van Aken, Campati per aria, eleuthera, 2021

#### CFU / Ore

1 CFU / 8 hrs

#### Periodo di erogazione

11/01/2023 1:30 pm - 5:30 pm U2-03 25/01/2023 9:00 am - 1:00 pm U2-05

course registration on "Segreterie online" from 20/12/2022 to 04/01/2023 - REGISTRATION CLOSED due to high number of requests
