SYLLABUS DEL CORSO

Neuroinflammation

2223-90R-MOD4

Title

Neuroinflammation

Teacher(s)

Maria Foti

Language

English

Short description

The course will provide an extensive knowledge of the role of inflammation in nervous system health and disease. This unit will cover the important role of inflammatory molecules as key mediators of CNS functions and will provide basic knowledge on the pathogenesis and inflammatory responses to acute and chronic nervous system disorders.
