SYLLABUS DEL CORSO

Pathways, biomarkers and new therapies in neurodegenerative disorders

2223-90R-MOD3

Title

Pathways, biomarkers and new therapies in neurodegenerative disorders

Teacher(s)

Carlo Ferrarese

Language

italian or english

Short description

To present current translational research on pathways and biomarkers for early diagnosis and new targeted therapies , the course will focus on:

molecular mechanisms of neuronal damage (protein misfolding, excitotoxicity, oxidative stress, neuroinflammation)

biomarkers in patients

new therapeutic trials based on biomarkers
