COURSE SYLLABUS

Internship in Onco-Hematological Diseases - PGXXIII Hospital Bergamo

2324-3-H4102D100

Obiettivi

The purpose of the internship is to provide the student with a basic foundation in the diagnosis and management of the principal onco-hematological diseases (acute and chronic leukemias, lymphomas, multiple myeloma and related plasma cells dyscrasias, anemias, myelodysplastic syndromes, myeloproliferative neoplasms…).

Contenuti sintetici

This internship provides supervised clinical education in onco-hematological diseases management, including:

- clinical management,
- exam and procedural skills,
- interpretation of diagnostic data,
- patient counseling,
- development of diagnostic and management plans, and inter professional communication both in the inpatient and the outpatient setting.

Programma esteso

Students should be able to understand, define, describe, and discuss:

- Basic methods of initial evaluation of onco-hematological diseases,
- Diagnosis, treatment and management of the acute and chronic leukemias, lymphomas, multiple myeloma

and related plasma cells dyscrasias, anemias, myelodysplastic syndromes, myeloproliferative neoplasms…
- Evaluation of various symptoms seen during chemo-immunotherapy treatments and the basic principles of their management (e.g., pain, dyspnea, nausea and vomiting, anorexia, fatigue, constipation).
- Indications, contraindications, and complications of the stem cell transplantation and of the other cellular therapies.

Prerequisiti

Examination of the onco-hematologic vertical track.

Modalità didattica

Attendance to and participation in the daily clinical activities and meetings of the Hematology Unit.

Materiale didattico

Standard operative procedures, guidelines and protocols of the Hematology Unit.

Periodo di erogazione dell'insegnamento

Second term

Modalità di verifica del profitto e valutazione

Preceptor’s evaluation is based on the following:

- Attendance to and participation in the daily clinical activities and meetings,
- Interaction with medical staff and nursing personnel,
- Motivation in the learning process,
- Overall performance, participation, enthusiasm to learn, and effort to improve.
