Teaching methods
Lectures complemented by on-line material. During the lecture students will be instructed about theoretical model and empirical cases based on real world data.

Assessment methods

Students will take an oral exam. The exam aims at understanding whether students are familiar with the main economic phoenomena, like unemployment and inflation, explaining their causes and providing possible solutions with the instruments of economic policy. Students will show critical thinking in the analysis of different economic theories and their practical application.

Students may submit an essays two days before the exam investigating one of the topics suggested during lectures. The first part of the exam will be a discussion of the essay. The essay is optional.

Students are requested to have a personal document for identity check.
