COURSE SYLLABUS

Developmental Psychology - M-Z

2324-1-G8501R003-G8501R003M-MZ

Course title

Developmental Psychology (M-Z)

Topics and course structure

After a brief historical overview of the discipline and reflections on the methodologies mainly adopted, the development of the main psychological dimensions (motor, emotional, affective, cognitive, linguistic, social and moral) will be persented in the light of the main theoretical models and their potential application in the educational school context.

Objectives

The course aims at introducing students to the theoretical models of developmental psychology, considering the psychological development as a complex and multidimensional process engaging the person through the life cycle.

Methodologies

Lectures, practical excercises

Online and offline teaching materials

Slides, video
