

UNIVERSITÀ DEGLI STUDI DI MILANO-BICOCCA

SYLLABUS DEL CORSO

Genetica - 1

2324-2-I0102D903-I0102D912M-T1

Aims

Knowledge of the basics of human genetics.

Contents

The course provides to the foundations of human genetics.

Detailed program

TYPES OF DIAGNOSTIC TESTS IN GENETICS: APPLICATIONS, ADVANTAGES AND LIMITATIONS

- cytogenetics
- molecular cytogenetics (FISH and ARRAY CGH)
- molecular genetics: old and new generation sequencing GENETIC COUNSELLING
- theoretical, empirical and modified risks
- ethical and social aspects GENETIC TESTS
- classification: diagnostic, pre-symptomatic, predictive
- appropriateness of genetic testing GENOMIC DISEASES AND COMPLEX DISEASES INVASIVE AND NON-INVASIVE PRENATAL DIAGNOSIS
