- Knowledge of tools aimed at improving the welfare of people living a conflict

Applying knowledge and understanding

- Ability to bring within the working team the knowledge learned, collaborating effectively
- Ability to traferire content learned in practical exercises.

Contents

The lab-course aims at favouring the acquisition of knowledge on family dynamics consequential to crisis and separations, with particular attention towards the promotion of dual parenting and the intervention of family mediation as a tool of the Alternative Dispute Resolution (ADR).

Through direct theoretical application, the lab-course explores emotional aspects of parents and children within separation conflict, and the principles and the main objectives of family mediation

Detailed program

- Social climax around separation conflict
- Psychological dynamics of separations: amongst adults, in children and teenagers, within family relations
- Re-organization of family relations before or after separation: children’s needs, adults needs
- Psychological consequences of the legal and judicial process around parental separation
- Sustaining parental responsibilities in order to effectively govern conflict
- Activation of the resources and spontaneous capabilities of the people involved
- Promotion of symmetry and reciprocity in mothers and fathers care
- Principals, objectives and rules of family mediation

Prerequisites

Knowledge of the basics of Developmental Psychology and couples and family dynamics.

Availability to discussions and active participation.

Teaching methods

- Group work on articles and other material
- Discussion of documents and readings
- Discussion of cases
- Pratical guided exercises

Assessment methods

Exercise and discussion with the Professor.
