Course title

Critique and clinic of contemporary organizations.
The pedagogical point of view

Topics and course structure

The course describe modern and contemporary organizations from a pedagogical point of view; as well as introducing to the pedagogical domain itself.

We will proceed to do - thanks to the voice of some contemporary philosophers - a critical analysis of those and - thanks to some psychoanalysts - to a clinic of organizations.

Objectives

1. to know and to understand the proposed themes of philosophy of education/training and, in general, to link the significant issues of pedagogical domain to a pedagogical point of view;
2. to relate different knowledge and models about current organizations;
3. to apply knowledge and models in question to future professionalism.

Methodologies

We propose:

- frontal lesson;
- reading and/or listening significant texts;
- viewing of films/significant scenes:
- clinical exercises aimed at analyzing and re-elaborating the personal and group educational experience.

Online and offline teaching materials

Will be uploaded to the virtual classroom: articles, short texts, images, music... in reference to the lessons; all this material is useful for the final exam.

Programme and references
