UNIVERSITÀ DEGLI STUDI DI MILANO-BICOCCA

SYLLABUS DEL CORSO

Fondamenti di linguistica italiana e applicazioni della linguistica italiana all'analisi dei testi

2324-A22-FIA22006

Title

Fundamentals of Italian linguistics and applications of Italian linguistics to text analysis

Teacher(s)

Claudia Bonsi

Language

Italian

Short description

The course will provide the fundamental notions and tools of the discipline, with particular attention to the axes of linguistic variation and textual genres. It will then focus on the possible applications of these tools to the analysis of literary and non-fiction texts.
In-depth materials will eventually be made available on the course's e-learning platform.

CFU / Hours

1 cfu - 6 online. A minimum attendance percentage of 70 percent is required to be admitted to the final exam

Teaching period

from 18/07/24 to 20/12/2024

Sustainable Development Goals

QUALITY EDUCATION
