SYLLABUS DEL CORSO

Linguaggio della geo-graficità (cartografia e sistemi informativi geografici); coordinate spazio temporali

2324-A22-FIA22009

Title

Geo-graphic language (cartography and geographic information systems); space-time coordinates

Teacher(s)

Language

Short description

The course introduces the fundamental concepts and techniques used to represent and analyse geographical space.
The programme is divided into two main thematic sections:

1. Discovering Geographical Knowledge
2. Time and space: measurements and representations
   The course aims to provide a detailed understanding of the fundamental concepts of geography and spatial representation techniques and to encourage the development of a critical and integrated view of the topics covered.
