Prerequisites

Defined by the Regulations of the Degree Programme.

Teaching form

Lectures; the teacher promotes discussion among students on problems related to modern nursing and medicine, involving students and asking them to reflect on the historical evolution of the relationship between patient and healthcare worker and on the evolution of the concept of health.

All classes are conducted in-person in a lecture format: 8 lectures of 2 hours each, held in-person in Monza (synchronous tele-teaching for the locations in Lecco, Faedo Valtellino, Bergamo).

The language is Italian

Textbook and teaching resource

Cesana G, Riva M.A. (2017) Medicina e Società. Firenze: Società Editrice Fiorentina

Semester

3rd Year, 2nd Semester

Assessment method

Final exam of History of Medicine: written test with closed multiple-choice questions with only one correct answer (10 questions) and short-answer questions (3 questions), in order to assess the basic knowledge and understanding of a topic and to evaluate the cognitive and interpretative skills. Each multiple-choice question is worth 2 points, and each short-answer question is assigned a variable score ranging from 3 to 4 points depending on the complexity of the question. The total score is 30.

Office hours

On appointment, writing to michele.riva@unimib.it
