# **COURSE SYLLABUS**

# **Anesthesiology**

2425-3-I0101D017-I0101D053M

#### **Aims**

The objective of the Anesthesiology module, within the Critical Care Nursing course, is to provide students with the fundamentals to understand the goals, delivery methods, and risks associated with anesthesiology techniques.

The program includes:

#### **Pharmacological Basics:**

Pharmacokinetics and pharmacodynamics of general and local anesthetics, as well as analgesics.

#### **General Anesthesia**

- · Airway management.
- Intraoperative temperature management.
- Intraoperative monitoring.
- Identification and treatment of intraoperative complications.

### Regional Anesthesia:

- Techniques of regional anesthesia.
- · Local anesthetic toxicity.

#### **Postoperative Pain Management:**

- · Pain assessment.
- Pharmacological therapy.
- Integration of regional techniques in postoperative pain management.

#### **Contents**

The aim of the course is to equip students with the necessary tools for the proper perioperative management of surgical patients.

#### **Detailed program**

ANESTHESIOLOGY - Introduction to anesthesia. Different types of anesthesia and choice. General anesthesia. Safety in Anesthesia, and equipments. The Informed Consent to anesthesia. The premedication. Intravenous Anesthesia: Hypnotics. Analgesia in Anaesthesia: Opioids. Inhalation anesthesia. Curare. The Airway management and mechanical ventilation. Local anesthetics. Locoregional anesthesia: central blocks and peripheral blocks. The intravenous infusions in the operating room. Intra-operative and post-operative monitoring. Pre-operative assessment. The Risk in Anesthesia. Patient's posture. Complications of anesthesia. Treatment of Acute Postoperative Pain. Anesthesia in Patients with Concomitant diseases.

### **Prerequisites**

Positive evaluation in the following exams: Fundamentals of Nursing and Midwifery Sciences; Nursing Clinical Methodology; Biomedical Sciences 1; Biomedical Sciences 2; Human Physiology; Clinical Specialty Nursing; Surgical Specialty Nursing.

#### **Teaching form**

Lectures delivered in face-to-face mode using the "telediddatica" system

#### **Textbook and teaching resource**

Galvagni, Perini (2010) L'infermiere in sala operatoria- McGraw Hill; Chiaranda M. (2022) Urgenze ed Emergenze – Istituzioni, V ed., Piccin; Linee Guida Italian Resuscitation Council e European Resuscitation Council, 2015; Galvagni M., Perini C.
