Assessment method

The final exam aims to assess the acquisition of knowledge and understanding of the program content, testing the ability to apply it with clinical reasoning and care planning.
It consists of a written exam followed by an interview.
The written exam consists of closed-ended (true/false, matching, multiple-choice quiz) and short open-ended questions on the content covered in the Gynecological Care Didactic Unit.
The oral examination will involve the discussion of the written test and an interview on the topics covered in class in the other three Didactic Units that make up the teaching.
The use of correct terminology and appropriate disciplinary language will also be considered for evaluation.

Office hours

On appointment.
