COURSE SYLLABUS

Labor and Delivery Complications 1

2425-3-I0102D904-I0102D913M-T1-T5

Aims

Provide the knowledge and skills to recognise pathological situations during labour and delivery and to act appropriately, implementing appropriate care modalities for high-risk conditions.

Contents

Main dystocia conditions of labour and delivery (part one)

Detailed program

- Prevalence, diagnosis and treatment of the main dynamic dystocia of stage I and II labor.
- Shared care of woman in labor with medium/high risk condition: pre-CT, Pregnancy Beyond Term (GOT), Chorionamniosite
- Principles of interpretation of intrapartum cardiotocography.
- Diagnosis and treatment of intrapartum fetal well-being alterations.
- Epidemiology, pathophysiology, clinical management of Fetal Endouterine Death.

Prerequisites

None.

Teaching form

7 hours of synchronous remote didactic delivery.

5 hours of lectures mainly in the delivery mode (frontal, in-presence lecture) with the inclusion of interactive activities (didactic videos, guided discussions on clinical cases).
