

SYLLABUS DEL CORSO

Travaglio-Parto Distocico 2

2425-3-I0102D904-I0102D915M-T1-T5

Aims

Provide the knowledge and skills to recognise pathological situations during labour and delivery and to act appropriately, implementing appropriate care modalities for high-risk conditions.

Contents

Main dystocia conditions of labour and delivery (part two)

Detailed program

- Prevalence, diagnosis and treatment of the major mechanical dystocias of Stage I and II labor.
- Twin births.
- Indications, techniques and procedures of instrumental deliveries: Caesarean section, Application of obstetric suction cup, forceps)
- Prevalence, diagnosis and treatment of Stage III-IV pathology.
- Indications, technique and surgical procedure: manual removal.

Prerequisites

None.

Teaching form

8 hours of synchronous remote didactic delivery.

4 hours of lectures mainly in the delivery mode (frontal, in-presence lecture) with the inclusion of interactive activities (didactic videos, guided discussions on clinical cases).
