COURSE SYLLABUS

Community Midwifery

2425-2-I0102D011-I0102D033M-T1-T5

Aims

The seminar addresses the issue of territorial and community care in the various contexts and in all areas of the promotion, prevention and global protection of women's health, in all ages and with a view to improvement and integration with the services currently present in the health supply network.

Contents

The seminar is aimed at highlighting the specific skills acknowledged to the midwife and at enhancing and reinforcing the topics related to: Professional autonomy, management of critical situations, integration with the work team, problem solving, empathy and listening skills.
