DEGLI STUDI DI MILANO-BICOCCA

## SYLLABUS DEL CORSO

### **Maltrattamento ed Abuso: Aspetti Medico-Legali, Vittimologici e Criminologici**

2425-2-I0102D118

---

#### **Aims**

The course aims to present the different types of violence (ecologic model, definitions, problem size) and their legal framework, to explain the medico-legal approach in cases of suspected maltreatment/abuse and to illustrate, with the help of clinical cases, psychological signs of maltreatment/abuse and the traumatic developments in minor abuse victims (shaken baby syndrome, battered child syndrome, female genital mutilation).

#### **Contents**

Medico-legal and criminologic aspects of abuse and neglect.

#### **Detailed program**

Violence is a complex problem and it is increasing above all on women and girls and it is necessary to see it in order to protect the weakest subjects. From a judicial fact, today it has become a health and more generally a social problem, thus determining the need to train health workers to the awareness of violence in society, acquiring knowledge for the identification of abuse in its various forms, recognizing the early signs and events, mainly to prepare the appropriate and necessary therapeutic measures, to activate a social intervention and to possibly activate the judicial agencies.

## **Prerequisites**

Registration for the 2<sup>nd</sup> year course

## **Teaching form**
