DEGLI STUDI DI MILANO-BICOCCA

COURSE SYLLABUS

Professional Laboratories 3

2425-3-I0202D037

Aims

The student, at the end of the workshop, will have to increase awareness about the different perceptions.

Contents

The laboratory provides practical experiences aimed at increasing students' awareness of different perceptions. The senses of sight, hearing, touch, taste and smell will be analyzed in depth.

Detailed program

THE SENSES LABORATORY: This workshop is divided into four days, one for each sense (sight, hearing, touch, smell and taste together). During each day, students will make practical and selective experimentation of the various sensory perceptions, to be better prepared for an empathic relationship with patients suffering from sensory deficits.

Prerequisites

Objectives of the first and second year courses

Teaching form

Practical workshops and exercises
