Space-time organization

Video analysis

## **Prerequisites**

Acquisition of the contents provided in the first semester courses, in particular Neuroanatomy, Neurophysiology, Neurodevelopment and Child neuropsychiatry

## **Teaching form**

Main method Delivery teaching. We seek interaction with students in an interactive way through the viewing and analysis of videos. All activities are carried out in person.

## **Textbook and teaching resource**

## **Semester**

First year, Second semester

## **Assessment method**

The exam consists of a written test, to be carried out in the computer laboratory, consisting of closed-ended questions (True/False, Correspondences, Multiple Choice) to check preparation on the exam program. The exam contains as well some requests for a short essay to check communication skills in a disciplinary context. Upon request of the teacher, it will be possible to carry out an oral interview to integrate the written production.

## **Office hours**

By appointment. The teacher can be contacted at the following email address:  
stefania.zanchi@unimib.it

## **Sustainable Development Goals**

GOOD HEALTH AND WELL-BEING
