DEGLI STUDI DI MILANO-BICOCCA

SYLLABUS DEL CORSO

Contabilità e Bilancio

2425-2-E1803M049

Learning objectives

This course is designed to introduce students to the basic concepts underlying financial accounting systems. The course emphasises the measurement concepts and bookkeeping of business transactions for the construction of the basic financial accounting statements - the income statement, balance sheet, and cash flow statement - as well as their interpretation for management decisions. The course also provides an overview of the financial statements of banks.

The student will be able to record the business transactions and to proceed with the preparation of financial statements, as required by the implementation of the new legislation and accounting standards. The student will be able to properly interpret the operating performance and the financial condition of the company.

Contents

Detailed program

The financial statement of banks

Introduction to international accounting standards

Prerequisites

Basics of business administration.

Teaching methods

Blended Learning:

- 28 hours face-to-face lectures by engaging students in problem solving, exercises and discussion of cases
- 35 hours online activities:
 - Online exercises and tests
 - Weekly assessment (online tests)

Assessment methods

The exam is written with an option for an oral exam. The written exam deals with the preparation of financial statements, starting from the record of transactions and the preparation of trial balance to get to the preparation of financial statements, including the accounting disclosure and standards.

Written exam.

The written exam includes numerical and multiple-choice questions. The numerical exercises are aimed at ascertaining the student's ability to apply the course concepts to practical cases while the multiple-choice questions assess the student's systematic knowledge of the basic course contents.

- STUDENTS ATTENDING THE COURSE IN BLENDED-LEARNING FORMAT:
 - Assessment of weekly online activities

–Two written tests during the course (optional) (November and early January before the end of the course)

The two tests cover respectively the first and the second section of the programme. A positive assessment in both tests (threshold: 18/30) allows students to accept the final grade or to go directly to the oral exam (optional) on the full programme. Students that do not pass the intermediate tests, do not accept the grade achieved or do not take the two tests will take the exam in the regular exam form.
