#### Learning objectives

##### LEARNING OUTCOMES:

The course aims at providing the students with fundamentals on company law, in the EU context and with reference to certain domestic company law. The course will address company law topics (namely, forms of organizations, limited liability, formation of the company and company's share capital, corporate governance, members, fundamental changes and market for corporate control), instructing the students to analyze EU rules where applicable and to compare domestic rules on the topics of interest.

##### KNOWLEDGE AND UNDERSTANDING:

Knowledge and understanding of the EU legal framework and certain domestic company law with special reference to corporations and private companies

##### APPLYING KNOWLEDGE AND UNDERSTANDING:

Search for, understand, construe the EU sources of law on, and the domestic regulation of, companies

##### MAKING JUDGEMENTS:

Identify and assess the interests protected and enforced by certain domestic company law in the EU framework with reference to stockholders and stakeholders

##### COMMUNICATION SKILLS:

Build up a legal vocabulary and illustrate a discussion of legal provisions with reference to EU and certain domestic company law

##### LEARNING SKILLS:

Assess, describe and debate legal issues with reference to asset separation in companies and to corporate governance, corporate finance, shareholders rights, mergers and acquisition, investors' protection and take over.

## Contents

The course aims at:

- introducing students to the various legal forms of the business organizations and their main features;
- studying the main issues of the corporate form in a European Union regulatory perspective and taking into account some of the European jurisdictions with reference to selected issues.

For each area the students shall focus on the interests and the legal issues involved, in order to compare solutions developed by the European Union and the national regulators, with special regard to Italy and with references to UK and Germany.
