SYLLABUS DEL CORSO

Communication Management - 1

2425-1-F7701M076-T1

Learning objectives

The course of Communication Management aims to get into detail with corporate communication and marketing communication, both from the theoretical point of view and of managerial tools.

Knowledge and understanding

Students will acquire a solid knowledge of the fundamental theories and managerial approaches related to corporate communication. They will be able to understand the dynamics that influence corporate communication, its strategies and the tools used to manage communication in different organizational contexts. Furthermore, they will understand the key concepts related to communication theory, with particular attention to business applications.

Applying knowledge and understanding

Students will be able to apply the managerial theories and tools learned in the course to develop effective communication strategies for businesses. They will be able to design and implement corporate communication plans, using practical and goal-oriented approaches.

Making judgments

Students will be able to analyze and evaluate the most appropriate communication strategies in relation to business objectives and to formulate autonomous judgments on their effectiveness, taking into account the organizational context, the available resources and the company's objectives.

Communication skills

Students will develop the ability to clearly communicate strategies and decisions related to corporate communication, both in written and oral form.

Learning skills

Students will be able to learn independently and update themselves on the latest theories and practices in the field of corporate communication. Furthermore, they will be able to apply what they have learned in a practical way, tackling real cases and solving corporate communication problems.
