

UNIVERSITÀ
DEGLI STUDI DI MILANO-BICOCCA

SYLLABUS DEL CORSO

Pedagogia Interculturale

2425-2-F5103P093

Learning area

Typical development and educational contexts

Learning objectives

Knowledge and understanding

Knowledge of theoretical and methodological perspectives in studying children's development of social cognition and socio-emotional competences with a specific focus on cultural variables, cultural differences, and interculturality.

Applying knowledge and understanding

- acquisition of skills to understand and evaluate the subjects and dynamics of educational contexts;
- applications of a variety of instruments in multicultural educational contexts to assess children's development as well as the efficacy of intervention programs.

Contents

First part of the course:

focus on the educational contexts (e.g., nursery, kindergarten and primary school) in which the psychological development can be promoted and supported with a specific attention to the 'culture' variable.

Second part of the course:

focus on specific topics (e.g., the development of social cognition and social and emotional competences) as well as on the efficacy of intervention programs to enhance this development in children from different cultures.

Detailed program

First Part

1. Historical origins of the creation of educational contexts for children
2. Dialogue between Pedagogy and Educational Psychology
3. The pedagogical debate on the 'educational continuity' in a multicultural world

Second Part

1. human uniqueness between biology and culture
2. human social cognition
3. the development of social understanding
4. the development of theory of Mind and emotion Understanding
5. human social competences
6. social and emotional development
7. prosocial development and prosocial behavior
8. psycho-pedagogical intervention Programs to promote the development of social cognition and social competencies in the educational contexts
9. tools for the research and the assessment in educational contexts
 - TEC (Test of Emotion Comprehension)
 - AKT (Affective Knowledge Test / The Puppet Interview)
 - BPS-I (Battery of Prosocial Tasks-Infancy)
 - Other instruments.

Prerequisites

Basic knowledge of Developmental Psychology and Educational Psychology .

Teaching methods

Frontal teaching in presence and in Italian language; use of slides, videos, tools of research, presentation of validated programs for the psycho-pedagogical intervention.

Assessment methods

Written test; 3 open questions (10 point for each question).

For students who request it, an oral integration exam can be scheduled.

The evaluation criteria are: language property and accuracy, knowledge of the topics, personal elaboration of the contents, connections between the different topics, critical and reflective ability.
