Semester

First semester

Assessment method

There are no intermediate tests.

The final exam consists of a written test followed by a mandatory oral test.

- Written Test: multiple-choice test (30 questions with four answers each, only one correct, covering topics discussed in class and not covered in class but included in the syllabus). To pass the written test, at least 18 questions must be answered correctly.
- Oral Test: A discussion on topics covered in class and not covered in class but included in the syllabus. The oral test will assess both content knowledge and clinical reasoning skills.
