COURSE SYLLABUS

Corporate Law

2425-2-E1401A007

Learning objectives

Understand the main contents and basic logic of commercial and corporate law

Contents

The course focuses on the regulation of business and companies in the Italian legal system. After highlighting the essential logics that govern its functioning, the course aims to delve into corporate law. The main topics of corporate law, with particular reference to corporations, will then be explored. Finally, some cross-cutting profiles of the different types of companies, such as groups and extraordinary transactions, will be briefly addressed

Detailed program

First Part - Business Law:

- the entrepreneur;
- the regime of publicity;
- the commercial representation;
- accounting;
- the firm;
- insolvency procedures (overview).

Secondo Part - Company Law:

- companies in general;

- the joint-stock company: typological characteristics; financial structure (regulation of shares; incorporation and contributions; share capital; withdrawal; bonds and financial instruments); management (shareholders' meeting; administrative body; system of controls);
- limited liability companies;
- groups;
- M&A and takeovers.;
- mutuals.
