Detailed program

- 1) Balance of Payments and the current account
- 2) Forex market, equilibrium conditions (UIP, CIP, PPP)
- 3) Equilibrium in the foreign exchange market short run vs long run 4) Fixed exchange rates
- 4) The international financial system
- 5) The European Monetary Union. Monetary policy and the European Central Bank

Prerequisites

It is required a solid knowledge of Macroeconomics.

The exam of Macroeconomics and Economic Policies must be registered to be able to take the exam of International Finance.

Erasmus students wishing to attend the course must be able to solve numerical exercises and use graphical methods.

Teaching methods

Lectures, Exercises, Readings and work with macroeconomic data.

Assessment methods

The assessment is based on an oral exam. It is composed of numerical exercises, graphical representations, and open questions. Numerical exercises want to test the understanding of the main models explained during the course. The open questions assess the student's ability to make connections between various topics of international finance explained during the course.
