Teaching methods

Most Lessons will take place face to face

The total 42 hours of lessons will be divided as follows:

- 19 lessons of 2 hours (total 38 hours) of teaching "focused on the presentation-illustration of contents by the teacher" (DE) in the presence of an explanation of the main topics of the course
- 4 hours in "interactive" teaching mode (DI) in the presence of display and discussion in class of the students' in-depth work
- there will be a number of hours delivered remotely which will not exceed 30% of the total (you will view them in the lesson program which will be uploaded a few weeks before the start of lessons). These will be 2 lessons and will be held in asynchronous form.

Assessment methods

Written and Oral exam

The written test consists of 20 multiple choice questions (with a score of 0/1) and two open questions with a score of 0/5; this test is passed with a score higher than 18 and gives access to the oral part. The oral exam focuses on the development of a case study for both attending and non-attending students.

The exam consists of two parts:

- . Written exam (50%)
- . Group work - case study (50%)

The discussion of the group work will be possible after the passage of the writing; at the time of the last part of the exam it will be necessary to register for the online sifa to take the exam minutes.
