SYLLABUS DEL CORSO

Writing of scientific papers

2425-102R-01

Titolo

Writing of Scientific papers

Docente(i)

Marco Vanoni

Lingua

English

Breve descrizione

Objectives
How to read a scientific paper

- The “write first-do-the-experiments-later” approach
- How to structure a scientific paper
- Hands-on and practical excercises: students will be asked to perform some tasks. By way of example, they will write an abstract, a cover letter or an introduction of a paper according to some specific suggestions and the material prepared by a few randomly selected students - will be read and commented

If possible, a lecture will be given by an editor of a journal of the Nature group

Target audicence
The proposal is addressed to students of the science and medicine area.
Most examples will focus on biology, biochemistry, systems biology and related fields.
The course is not recommended for students of humanities

Partecipants
Min 10 Max 50

Notes
The course will be programmed through lessons in presence. Recordings of the lessons will made available as well

CFU / Ore

1 CFU / 8 hrs (not including the optional lecture)

Periodo di erogazione

03/03/2025 10.30 am - 12.30 pm U7.13
10/03/2025 10.30 am - 12.30 pm U7.13
17/03/2025 10.30 am - 12.30 pm U7.13
24/03/2025 10.30 am - 12.30 pm U7.13
31/03/2025 10.30 am - 12.30 pm TBC U7.13

course registration on “Segreterie online”: from 10/02/2025 to 26/02/2025
