SYLLABUS DEL CORSO

Software for experiments: E-Prime/open Sesame

2425-77R-3

Title

SOFTWARE FOR EXPERIMENTS: E-PRIME/OPEN SESAME

Teacher(s)

Alessandra Vergallito

Language

English

Short description

The course aims to provide the fundamentals for programming cognitive and behavioral experiments in psychology, focusing on one of the most widely used software in experimental research, namely E-Prime. The software is particularly utilized in cognitive studies that require precise and structured presentation of stimuli and accurate measurement of responses. The course also introduces a very similar software in terms of functionality and language, Open Sesame. Open Sesame is an open-access software.
