COURSE SYLLABUS

Clinical Methodology B

2526-3-H4101D257-H4101D040M

Aims

The Medical Surgical Pathology Course 1 is aimed at acquiring the various patient assessment methods with particular attention to the collection of the medical history, physical examination and laboratory tests with a view to their subsequent application in the specialist field. The topics of the course constitute the necessary tools for understanding the semeiological basis and physiopathology of the main morbid conditions. The notions provided represent the indispensable basis for the acquisition of a scientific method applicable to all the specialized disciplines that the student will face in the course of his professional growth.
Patient's history taking, with focus on cardiovascular and respiratory problems, Diagnostic assessment with critical data interpretation, Physical examination, Main clinical signs and symptoms. Knowledge of normal ranges of the main diagnostic tests for the cardiovascular and respiratory systems.

Contents

Applications of clinical methodology: pathophysiology and diagnosis of selected problems related to the function of the cardiovascular system.

Detailed program

Cardiovascular pathophysiology and diagnostics in various contexts

- Syncope
- Shock
- Cardiovascular system under special conditions
- New technologies in cardiovascular diagnostics and monitoring

Prerequisites

Propaedeutic skills.

Teaching form

Lectures.

Textbook and teaching resource

Harrison’s: “Principles of Internal Medicine” Ed. McGraw Hill
