Prerequisites

The Practical-Evaluative Internship is attended no earlier than the sixth year of the course.
The student must have passed all the exams of the integrated courses of the first four years of the Course in Medicine and Surgery as per the teaching regulations.

Teaching form

attendance at the clinic of a General Practitioner

Textbook and teaching resource

The course does not refer to particular texts.

Semester

During the academic year (I and II semester)

Assessment method

The certification of attendance and the evaluation of the internship period take place under the direct responsibility

and care of the University Professor and the General Practitioner, who issue a formal certificate of attendance and express, after evaluating the results relating to the skills demonstrated, in the positive case , a judgment of eligibility. The frequency and assessment of eligibility are certified on the diary booklet, which is divided into a descriptive part of the activities carried out and an evaluation part of the skills demonstrated.

Office hours
