

UNIVERSITÀ  
DEGLI STUDI DI MILANO-BICOCCA

## SYLLABUS DEL CORSO

### Internato in Reparto di Biochimica Clinica

2526-2-H4101D097

---

#### Aims

TA practical experience in a clinical-chemistry laboratory

#### Contents

knowledge of the techniques commonly used in the chemical-clinical analysis laboratory, principles of organization, management of data and clinical information

#### Detailed program

clinical chemistry and biochemistry  
diagnostic hematology  
coagulation and hemostasis  
chemical-physical examination and urinary sediment  
quality control evaluation  
laboratory data management

#### Prerequisites

knowledge of the theoretical aspects of clinical pathology

## **Teaching form**

attendance in the clinical biochemistry laboratory

## **Textbook and teaching resource**

The didactic resource will be provided during the attendance of the laboratory

## **Semester**

The period of attendance during the semesters will be discussed with the student

## **Assessment method**

The assessment method will include the attendance of the clinical biochemistry laboratory and the discussion of the results

## **Office hours**

by appointment by mail [valerio.leoni@unimib.it](mailto:valerio.leoni@unimib.it)

## **Sustainable Development Goals**

GOOD HEALTH AND WELL-BEING | QUALITY EDUCATION
