

# UNIVERSITÀ DEGLI STUDI DI MILANO-BICOCCA

## **SYLLABUS DEL CORSO**

## Internato in Reparto di Medicina del Lavoro

2526-4-H4101D111

#### **Aims**

The objectives of the internship are:

- To understand the clinical activities carried out in the field of Occupational Medicine, with particular focus on health surveillance, prevention of occupational risks, and diagnosis of work-related diseases (DdD1)
- To apply theoretical knowledge in interpreting clinical cases observed during the internship and relating them to specific occupational exposure contexts (DdD2)
- To develop awareness of the role of the occupational physician within the prevention system and of their interaction with other healthcare and workplace professionals (DdD1)

#### **Contents**

The student will support an occupational physician (tutor) during the following activities:

- -Medical surveillance (medical examination + diagnostic tests) for workers exposed to occupational risks
- -Diagnosis and management of occupational diseases
- -Management of infectious diseases among workers

#### **Detailed program**

The student will be involved in all the activity of an occupational physician, supporting a doctor (tutor) from the occupational medicine department. The student will work alongside an occupational doctor in carrying out the medical examinations and necessary diagnostic tests required by the health surveillance protocols for workers exposed to occupational risks. The student will be involved in the second level activity, including the diagnosis and management of occupational diseases. Finally, the student will participate in the management of infectious diseases in healthcare professionals.

During the internship period, the student will participate in all the different activities of the occupational health department.

## **Prerequisites**

It is recommended that the student has already passed the Occupational Medicine examination

## **Teaching form**

The student will support an occupational physician (tutor) during all daily activities.
