

UNIVERSITÀ DEGLI STUDI DI MILANO-BICOCCA

COURSE SYLLABUS

Internship in Gastroenterology

2526-3-H4102D070

Aims

The internship aims to provide undergraduate students practical tools to recognize signs and symptoms of the most common gastrointestinal diseases, formulate diagnosis, verify differential diagnosis and propose therapeutic approaches. It also aims to offer students the essential tools for the interpretation of the most common laboratory tests and other diagnostic procedures, and to develop a diagnostic and therapeutic plan.

Contents

The student follows the clinic performed in the department of Gastroenterology

Detailed program

The student follows the clinic performed in the department of Gastroenterology

Prerequisites

Activity for medical students at 5nd year of course of Medicine and Surgery

Textbook and teaching resource
Nothing
