

## COURSE SYLLABUS

### **Childbirth Complications - 1**

2526-3-I0102D904-I0102D916M-T1

---

#### **Aims**

To provide knowledge and skills for evidence-based obstetric care in pathological situations during labour and delivery, with reference to the Midwifery Partnership, Midwifery Management, ICF classification and Rating Scales.

#### **Contents**

Midwifery care in conditions of labour and delivery dystocia.

#### **Detailed program**

- Care of women with medium and high obstetric risk profile: pre-CT, VBAC, pharmacological analgesia
- still-birth in intrapartum diagnostic-therapeutic-care pathways
- Midwifery care of women with stage I-II-III-IV complicated by dynamic and mechanical dystocia
- Pre-, intra- and post-operative midwifery care for women with Caesarean section
- Perinatal palliative care
- Female genital mutilation

#### **Prerequisites**

None.

## **Teaching form**

Lectures are conducted mainly in the delivery mode (frontal lecture) with the inclusion of some interactive activities (instructional videos, guided discussions on clinical cases).

Lectures are conducted in the presence.

## **Textbook and teaching resource**

PAIRMAN S., PINCOMBE J., THOROGOOD C., TRACY S. Midwifery. Preparation for practice, Churchill Livingstone - Elsevier, Marrikville, 2023, 5°ed, e-book.

SIMKIN PENNY, ANCHETA RUTH, The labor progress handbook. Early interventions to prevent and treat dystocia, Blackwell, 5° ed, 2024.
