

UNIVERSITÀ
DEGLI STUDI DI MILANO-BICOCCA

SYLLABUS DEL CORSO

Internati di Accompagnamento alla Nascita

2526-2-I0102D119

Aims

At the end of the internship, the student will be able to

Knowledge and understand

- Know the relational dynamics within the peer group
- Know the main strategies for stimulating confrontation and growth among participants
- Know the active training methodologies
- To know the techniques for body activities to be proposed to pregnant women.

Ability to apply knowledge and understanding.

- Apply knowledge of relational dynamics to foster an environment of confrontation and growth within the peer group
- Use the strategies learnt to stimulate confrontation and active participation of participants
- Employ active training methodologies in teaching and training activities
- Propose body activity techniques to pregnant women, adapting them to the needs of the group

Autonomy of judgement

- Evaluate the relational dynamics of the group and identify the most effective strategies to foster confrontation and growth
- Choose the most appropriate training methodologies based on the characteristics of the participants and the training objectives
- Evaluate the effectiveness of the body activity techniques proposed to pregnant women and make any modifications to improve the experience.

Communication skills

- Communicate effectively with participants, stimulating discussion and active participation
- Use active listening techniques and feedback to foster a collaborative learning environment

Learning skills

- Keep abreast of new active training methodologies and body activity techniques for pregnant women
- Develop skills in critical analysis of group dynamics and training strategies adopted, in order to continuously improve one's skills
- Integrate new techniques and approaches in training activities and proposals to pregnant women, while maintaining an attitude of continuous professional growth
