COURSE SYLLABUS

Interprofessional Experiences in Emergengy Diagnostics

2526-3-I0302D051

Aims

The course aims to provide the student with the skills necessary to deal with emergency activities through participation in Saturday afternoon rounds and to develop inter-professionalism through relationships with other health care providers.

Contents

Participation in rounds during holidays, pre-holidays and nights, as well as the ability to undertake successful interprofessional relationships are requirements for technicians once they become health care professionals. The course allows them to experience these abilities

Detailed program

Experience working alongside staff on Saturday afternoon shifts

Prerequisites

3nd year of the Course
