DEGLI STUDI DI MILANO-BICOCCA

SYLLABUS DEL CORSO

Tirocinio Valutativo

2526-2-I0202D129

Aims

Acquire the theoretical basis about pathological neonatal development and pathological neuropsychomotor development of children aged 0-6 years

Contents

To know how to observe and evaluate the patological neonatal development and the neuropsychomotor development of babies and children from 0 to 6 years of age. To know when to use the observation grids and the proposed development scales.

Detailed program

EVALUATION CLINICAL TRAINING

Knowing what to observe and how to evaluate neonatal development and the pathological neuropsychomotor development of children aged 0-6 years.

Know when to use the observation sheets and the proposed development scales.

Knowing how to analyze a clinical case (anamnesis, illustration of the case, diagnostic process)

Prerequisites

Objectives of the first year courses and Psychomotor and rehabilitation sciences 2

Teaching form

Observations, tutorials, supervision

Textbook and teaching resource

Semester

Annual, at the end of the second semestres

Assessment method

Oral test in order to ascertain the abilities of autonomous reflection, communication in the scientific field and implementation of diagnostic reasoning.

Office hours

You'll be received by appointment, elide.monaco@unimib.it; chiara.ricci@unimib.it

Sustainable Development Goals

GOOD HEALTH AND WELL-BEING | GENDER EQUALITY
