DEGLI STUDI DI MILANO-BICOCCA

COURSE SYLLABUS

Rehabilitative Medicine

2526-1-I0202D140-I0202D138M

Aims

At the end of the course the student must have learned knowledge and criteria to understand the physiological development of the child up to walking

Contents

The physiological development of the child up to walking

Detailed program

Development in the first year of life
Concatenations
Evaluation tools
Examples of clinical cases

Prerequisites

Objectives of the Foundations of Movement course. Objectives of the Kinesiology course
Passing of the individual teaching units that make up the course

Teaching form

The teacher exposes concepts in a delivery mode and seeks interaction with the students in an interactive mode. In particular, the first lessons are carried out in a face-to-face manner, while especially the last hours are carried out in such a way as to involve students in an interactive way through the viewing and analysis of videos. All activities are carried out in person.

Textbook and teaching resource

handouts provided by the teacher

Semester

first year, second semester

Assessment method

Written test: single/multiple choice quiz and short open-ended question.
Final interview at the discretion of the teacher or upon proposal of the student

Office hours

by email agreement with the teacher and PC. responsible for teaching

email: matteo.porro@unimib.it

Sustainable Development Goals

GOOD HEALTH AND WELL-BEING | QUALITY EDUCATION
