DEGLI STUDI DI MILANO-BICOCCA

SYLLABUS DEL CORSO

Neuropsychopharmacology

2526-122R-14

Learning objectives

To discuss themes that cut across different areas of neuroscience with pharmacological interest

Contents

The course will take place on May 4th and 11th from 2:00 PM to 6:00 PM.
Any changes to the dates can be agreed upon with interested students.
Students studying abroad will be able to connect remotely.

The course will present and discuss several cross-cutting topics of neuropsychopharmacological interest.
The main topics covered will be:

- Stress as a risk factor for disease
- Mechanisms of comorbidity between psychiatric and neurodegenerative diseases
- Psychedelic drugs and mental health

Textbooks and Reading Materials
