COURSE SYLLABUS

Drivers of Green Growth: Sustainability, Circular Economy, and Net Zero Industrial Policy

2526-111R009

Title

Drivers of Green Growth: Sustainability, Circular Economy, and Net Zero Industrial Policy

Teacher(s)

Massimo Beccarello (UNIMIB) / Giacomo Di Foggia (UNIMIB)

Language

English

Short description

The course focuses on the essential foundational knowledge of the European Green Deal and key elements driving sustainability and circular economy policies. Participants will be instructed to rethink business economics, generate value, and understand the principles and benefits of energy transition policies and the circular economy. They will delve into the dimensions of sustainability, the scope of efficiency and renewable energy, and circular economic policies, and will be equipped with all the necessary information to understand the transformative aspects of the new industrial policy.
