DEGLI STUDI DI MILANO-BICOCCA

## SYLLABUS DEL CORSO

### Recent developments in plasma physics

2526-113R041

---

#### Title

Recent developments in plasma physics

#### Teacher(s)

CLAUDIA RICCARDI

#### Language

english

#### Short description

The course focuses on recent advances in low-temperature plasma physics and fusion plasmas. It features seminars given by PhD candidates and graduates, followed by discussions on the topics presented. The seminars will explore subjects covered in the conferences and schools attended by the PhD students.

#### CFU / Hours

1 CFU/8 hours

## **Teaching period**

September 2026

## **Sustainable Development Goals**

AFFORDABLE AND CLEAN ENERGY
