SYLLABUS DEL CORSO

Recent developments in plasma physics

2526-113R041

Titolo

Recent developments in plasma physics

Docente(i)

CLAUDIA RICCARDI

Lingua

english

Breve descrizione

The course focuses on recent advances in low-temperature plasma physics and fusion plasmas. It features seminars given by PhD candidates and graduates, followed by discussions on the topics presented. The seminars will explore subjects covered in the conferences and schools attended by the PhD students.
