UNIVERSITÀ
DEGLI STUDI DI MILANO-BICOCCA

SYLLABUS DEL CORSO

Internato in Reparto di Ortopedia e Traumatologia

2627-5-H4101D184

Aims

The student will experience the treatment of traumatic and orthopaedic pathologies of muscle-skeletal system. The student will experience the post-operative management of patients who underwent traumatic and orthopaedic surgeries. The student will also be able to assist open or arthroscopic surgeries.

Contents

Provide the attending student with basic knowledge on the management of the orthopedic and traumatized patient. The student will follow an orthopaedic surgeon during the daily practice in the orthopaedic surgical ward, in the outpatient clinic and in orthopaedic emergengy room. The student will also be able to attend the surgical theatre.

Detailed program

At the beginning of the period, the daily activity of the student will be scheduled in order to guarantee an appropriate exposition to the activities listed above. In the same moment, specific tutors among the staff of the orthopaedic clinic and traumatology will be identified for each day.
