COURSE SYLLABUS

Internship in Dermatology - Uoc Dermatologia PGXXIII Hospital Bergamo

2627-3-H4102D107

Aims

The internship's aim is to provide the student with direct experience of managing patients with dermatological problems:

- Interpretation of signs and symptoms of dermatological conditions
- Understanding of 2nd level diagnostic procedures (dermoscopy, skin biopsy, epicutaneous tests, mycological examination)
- Understanding of laboratory and instrumental investigations
- Acquisition of the most appropriate diagnostic-therapeutic pathway.

Contents

The student will work with the doctor-tutor during his or her working day in the dermatology department, in the first and second level outpatient departments or in the inpatient section.

Detailed program

Each student is assigned, on a daily basis, 1:1 ratio, to a specialist from a first or second level outpatient clinic (general dermatology, allergic dermatology, dermosurgery, psoriasis outpatient clinic, melanoma outpatient clinic, sexually transmitted diseases outpatient clinic, autoimmune diseases outpatient clinic, photodinamic therapy) or in the inpatient section. During the period of attendance, the student will attend the different outpatient clinics in order to get the fullest possible overview of the dermatological discipline.

Prerequisites

Basic Clinical Skills course.

It is recommended that the student has already passed the Skin and connective tissue disease examination.

Teaching form

The student will support the dermatologist-tutor during consultations in the clinical, diagnostic and therapeutic process.
The student will attend the Dermatology Unit for a total of 10 hours (to be agreed with the tutor). The student will accompany the dermatologist-tutor during visits in the clinical, diagnostic and therapeutic pathway in the outpatient departments of the Dermatology Unit, ASST Papa Giovanni XXIII, Tower 6, entrance 47 (rooms 601-603, 614-624) or in the inpatient ward of the Dermatology Unit, Tower 2, entrance 15, floor 3.

The student may complete the guided observation part with briefing and debriefing by the hospital tutor.

Textbook and teaching resource

- Saavedra / Roh / Mikailov. Fitzpatrick's Color Atlas and Synopsis of Clinical Dermatology. McGraw-Hill, IX ed, 2023.
- Cainelli / Giannetti / Rebora. Manuale di Dermatologia Medica e Chirurgica, McGraw-Hill, VI ed, 2016 (Italian language).

Semester

4th to 6th year students

Assessment method

Direct verification of the acquisition of semeiological skills, clinical-diagnostic-therapeutic rationale and student-patient interaction skills.

The student must attend the internship according to the agreed schedule and timetable. The tutor will certify attendance.
