COURSE SYLLABUS

Emergency and Urgent Care System in Lombardy: Organization and Nursing Role

2627-3-I0101D134

Aims

The elective course:“ the Territorial Emergency-Urgency system in Lombardy: organizational context and the role of the nurse” provides students in the Bachelor of Science in Nursing degree program with a thorough knowledge of the organization and main constituent elements of the Territorial Emergency-Urgency system in Lombardy, enabling them to understand the different nursing roles and to apply these skills in guided simulations of critical life management in the out-of-hospital setting.

The specific objectives, formulated in accordance with the Dublin Descriptors, are as follows:

1. Knowledge and Understanding
   Know and understand the organization and the main constituent elements of the territorial emergency-urgency system in the Lombardy Region, including AREU and its AATs.

2. Ability to Apply Knowledge and Understanding
   Recognize and apply the different nursing models in the simulated management of critical life situations in the out-of-hospital setting.

3. Autonomy of Judgment
   Critically evaluate the organizational context and to make judgments about nursing intervention priorities in territorial emergencies-urgencies.

4. Communication Skills
   Communicate effectively and professionally with the emergency-urgency team and involved figures during critical care management.

5. Learning Skills
   Demonstrate autonomy in reflecting on one's own performance and continually updating on regulations and best practices in the territorial emergency-urgency system

Contents

The organization of the emergency territorial emergency system in the Lombardy Region (NUE 112, Operating Rooms ex-118).
Information on the organization of the Regional Emergency Emergency Company Lombardy (Areu) and its territorial articulations (AAT).
The different roles of the Nurse within the context of emergency urgency.
Notes on the approach and assistance to the person in a critical situation in the hospital

Detailed program

The organization of the emergency territorial emergency system in the Lombardy Region (NUE 112, Operating Rooms ex-118, etc.).
Information on the organization of the Regional Emergency Emergency Company Lombardy (Areu) and its territorial articulations (AAT).
The different roles of the nurse within the context of emergency urgency.
Notes on the approach and assistance to the person in a critical situation in the hospital
Practical simulations of significant life critical care cases in extra-hospital settings (on simulator dummy)
Guided plenary debate

Prerequisites

Enrolment in the third year of the Degree in Nursing

Teaching form

The lesson takes place in the paying mode in presence through frontal lesson and guided discussion

Practical simulations of life critical care cases in extra-hospital settings (on simulator dummy)
