

UNIVERSITÀ
DEGLI STUDI DI MILANO-BICOCCA

SYLLABUS DEL CORSO

Seminari Metodologici 2 - 1

2627-3-I0102D024-T1

Aims

To enhance the understanding gained during the educational project, in relation to specific issues.

Contents

The student will be able to transfer what was learned in the field of care in teaching through the theoretical frequency of the different clinics. Furthermore, the learning of specific skills will be achieved through exercise activity in protected areas, with the aid of material (mannequins, midwifery models) that will allow the simulation of events welfare. There will also be provided for exercises and work in small groups, led by the presence of the tutor who will help the development of acting skills and relational.

The student will define and describe the 16 Events Sentinel and related Recommendations of the Ministry of Health
