SYLLABUS DEL CORSO

Nascita Complicata - 1

2627-3-I0102D904-I0102D916M-T1

Aims

To provide knowledge and skills for evidence-based obstetric care in pathological situations during labour and delivery, with reference to the Midwifery Partnership, Midwifery Management, ICF classification and Rating Scales.

Contents

Midwifery care in conditions of labour and delivery dystocia.

Detailed program

- Care of women with medium and high obstetric risk profile: pre-CT, VBAC, pharmacological analgesia
- still-birth in intrapartum diagnostic-therapeutic-care pathways
- Midwifery care of women with stage I-II-III-IV complicated by dynamic and mechanical dystocia
- Pre-, intra- and post-operative midwifery care for women with Caesarean section
- Perinatal palliative care
- Female genital mutilation

Prerequisites

None.

Teaching form

Lectures are conducted mainly in the delivery mode (frontal lecture) with the inclusion of some interactive activities (instructional videos, guided discussions on clinical cases).

Lectures are conducted in the presence.
