## SYLLABUS DEL CORSO

### Microeconomia - 2

2627-1-E3305M004-T2

---

#### Learning objectives

The course provides students with the theoretical tools needed to understand the main microeconomic phenomena, with particular reference to the behavior of firms, individuals, and the public sector, as well as to market functioning. It provides also the ability to apply this knowledge to critically analyze the previous phenomena, tailor learned theoretical models to new contexts, and devise effective solutions to emerging challenges.

#### Contents

The course provides an introduction to the main topics of Microeconomics. More specifically, the course will examine the economic behavior of households and firms, the functioning of different types of markets (perfect competition, monopoly, oligopoly) and problems related to the absence of markets.
